## From Ka'ū to Kona: Stories of lava flows and volcanic landscapes

**Tuesday, March 11 ♦ 6:00 p.m.**

**Maka'eō Pavilion / Old Kona Airport State Park / Kailua-Kona**

Directions: <http://www.konatownmeeting.org/map.html>

(Map also on next page)

For more information, email [askHVO@usgs.gov](mailto:askHVO@usgs.gov) or call 808-967-8844.

While driving between Ka'ū and Kona, have you ever wondered about the prominent lava flows you see along Queen Ka'ahumanu and Māmalahoa Highways? If so, you are invited to join USGS Hawaiian Volcano Observatory scientists **Jim Kauahikaua** and **Janet Babb** on a virtual road trip, during which they will talk about the origin and history of lava flows along Highways 11 and 190, and recount the stories of people impacted by the eruptions that created the volcanic landscape we see today. Free and open to the public.
